## EXPERIENCE

---

### Full Stack Web Developer Intern

Nov. 2023 – Jan. 2024

*Integrated Digital Systems*

*Beirut, Lebanon*

- Developed a responsive PHP website, managed end-to-end projects efficiently incorporated weekly feedback, collaborated cross-functionally, and demonstrated commitment to continuous improvement and flexibility.
- Build up Database using MYSQL along with performing CRUD operations.
- Front-End Integration like HTML, CSS and JavaScript to create dynamic PHP web pages.

### Web Development Intern

Oct. 2023 – Nov. 2023

*CodeAlpha*

*Remote*

- Successfully implemented responsive and visually appealing user interfaces using HTML, CSS, and JavaScript.
- Demonstrated problem-solving skills by identifying and implementing JavaScript solutions to automate repetitive tasks, improving overall workflow efficiency. Enhanced website functionality by incorporating interactive features and dynamic content through JavaScript, contributing to a more engaging user experience.

### Web Designer

Jan. 2022 – Feb. 2022

*Ayoub Academy*

*Saida, Lebanon*

- Successfully completed a comprehensive 10-hour certification program focused on creating web pages using HTML and CSS. Acquired hands-on experience in structuring content (HTML) and styling layouts (CSS), demonstrating proficiency in the fundamental technologies that underpin modern web development

## EDUCATION

---

### Lebanese International University

Saida, Lebanon

*Bachelor of Science in Computer Science — GPA: 3.88/4*

*Oct. 2021 – Graduation: Jun. 2024*

## PROJECTS

---

### Watches Store | *PHP, CSS, JavaScript, Ajax, jQuery*

Dec. 2023 – Jan. 2024

- Spearheaded the development of a feature-rich e-commerce website from conception to completion. Implemented a responsive and modern user interface, ensuring an optimal browsing experience across various devices and screen sizes, showcasing a commitment to user-centric design principles..
- Designed and implemented comprehensive admin and user dashboards, empowering administrators to manage the entire website, including product inventory, order processing, and user management.

### Guess The Number Game | *Flutter, PHP*

Nov. 1, 2023 – Dec. 30, 2023

- Successfully conceptualized, designed, and implemented a mobile game, "Guess the Number," using Flutter and Dart
- Implemented a robust user authentication system with register and login forms using Flutter, ensuring the security and privacy of user data.
- Integrated a backend system with PHP to establish a dynamic leaderboard, allowing users to track and compare their scores, showcasing skills in database management and server-side scripting.

### Learning - Translator of Sign Language | *React-Tailwind-Laravel-Mediapipe*

Mar. 2024 – May 2024

- Created an ASL teaching platform with roles for students and admins. Students progress through levels, earn points, communicate with friends, and receive a completion certificate. Admins and super admins manage the platform, set goals, and oversee users.
- Developed an ASL translator model using MediaPipe. This model facilitates the translation of sign language from ASL/Arabic Sign Language into text using a webcam. Additionally, it enables the translation of text into corresponding sign language and additional features like copying the translation, add to favorite and hear the translation.
